

Discussion re: Use of Force Statistics (2020)

Arrests/Incidents involving Black subjects

In total 308 individuals were arrested (or dealt with) with a variety of Use of Force options.

In 2020 all police services were required to keep records pertaining to the ethnicity/diversity of those members of the public who were dealt with utilizing Use of Force options.

In 2020 the HRPS dealt with a total of 308 people using Use of Force

Several factors impact the increase in use of force utilized in 2020 including the number of times or Tactical Rescue Unit assisting in large scale take downs of organized crime and street gang takedowns out of our jurisdiction

In total 74 Black subjects were arrested or dealt with by a use of force option.

Of the 74

36 arrested by TRU outside of our Jurisdiction (JFO operations, street gang multiple arrests)

38 were arrested In Halton

Of the 38

22(2) reside outside of Halton (eg Human Traffickers here to do business, deal drugs, etc)

ONLY 14 Reside in Halton

Total of 74 represents 15%

BUT..... 14 is 2.84%

Which is the 2.8% demographic number for Halton Region in our last census
